CADET SPOTLIGHT

Here's your chance to share something that you enjoy with your fellow cadets. As the Spotlight Cadet you will be asked to give a presentation based on your experiences.

It can be as detailed as you would like and can be between 10-30 mins. It can be a simple verbal presentation or can include power point presentation, video, props, whatever you like. The main goal is to share your experiences and knowledge with your fellow cadets while gaining some experience with public speaking.

Your topic should be something related to the pillars of Civil Air Patrol: such as aerospace, emergency services, cadet activities, flight, ROTC etc. If you've gone to a special activity or encampment, that would be a great topic after your introduction. Try to make your presentation interesting and above all, have fun!

- Briefly introduce yourself- Who are you?
 - Age, grade, school
 - How long have you been in CAP
 - What got you interested in CAP
 - What do you hope to achieve through CAP
- Discuss one of the best/most exciting/most enjoyable things you have done through CAP
 - Have you gone to an encampment or special learning activity
 - Do you have any specialized aerospace, STEM, engineering, flight knowledge
 - You may discuss another related experience
 - Think what would interest other cadets
 - Flight experience, engineering, STEM, ROTC....

REMEMBER WE DO THIS BECAUSE WE ENJOY IT SO LET'S HAVE FUN!
